TERMINAL DISASTER.

The walls of the Galaxy Mill Fall—One Man Killed and Another Injured.

The most disastrous accident occurred yesterday afternoon, which has happened in this city since the terrible mill disaster last year, and in which it is thought several lives were lost. After the night mill explosion attempts were made to throw down the standing walls of the wrecked edifices and those of the Galaxy mill.

Yestday morning the walls of the Galaxy mill, and after blowing away at them for a time it was determined to let them stand and patch them up for a new mill.

Shahill & Fletcher accordingly, three weeks since, commenced operations, and from that time some fifty men have been employed upon the dangerous and threatening work.

dangerous because the heavy walls towering up stories in height had been shaken by the explosion, and further weakened by the attempts to cast them down, and threatening, as all could see, from one wall bulging at least five feet from the perpendicular.

Yesterday morning about fifty men at work in the building, some in the basement, others laying joists in the second story, and others putting up the wall to strengthen the bulged side. All the walls were busy at their several occupations, and little dreamed of danger. Mr. Cahill had just left the building with the foreman, Mike Walsh, who noticed mortar dropping from the new wall, and as he watched a small stone rolled from its place. He shouted an alarm. The man for a moment looked around them, and they saw the towering mass of stone rocking and away to and fro above them.

Some men were to be lost, and some rushed frantically from the impending danger. Two men, Solson and McKenzie, sprang from their scaffold upon the wall.

Others succeeded in getting out before the thundering mass came crashing down. Some of the boldest and some of the bravest of the men were killed.

Others, crushed to splinters, were buried beneath the heaped up debris. Some of the wall crumbled, and the timber of the Eastern railroad. The scene and frightful sight, it was soon discovered that a poor fellow at least, was buried to the neck in the wall.

One leg was found crushed and mangled and lifeless. One leg was torn from his body, the top of the head jammed off, and his side mangled in the frightful manner. The ghastly remains were removed to Wall's office, where an inquest will be held over them this morning.

The unfortunate man was working on the Avenue house. Mr. Hurd, another worker, was lucky enough to escape with a contused shoulder and some bad bruises. Mike Connor was not so fortunate, and it is thought his injuries may prove fatal.

Dr. DeLozier, at the hospital. He is injured about the head, and greatly shaken.

Several men were at work in the basement, it is thought that some of them are buried beneath the mass of stone and mortar. Workmen will clear away the debris to-day, and go on with the building.

Mr. Fletcher estimates the loss to the firm at \$3,000. The injured man, Connor, is from Hudson, Wisconsin, and yesterday was the first time he was at work on the mill.

The Houseman Which Keats Died.

From the Swift Times.

On the afternoon of February 28 a stone with an inscription commemorating the residence and death of John Keats in a house at the foot of Trinita de Monti steps, at Rome, was unveiled in the presence of the British ambassador and although the weather was bad a large number of the English and American residents and visitors were present to witness the ceremony.

To Mr. Gen. Sir Vincent Eyre, who made an effective speech in this laudable undertaking. After speeches from Sir Augustus Paget, the British ambassador, and the Rev. Dr. Nevill, on behalf of the American colony, the covering which hid the stone was removed and the following inscription could be read:

Keats poeta Giovanni Keats Menste maraviglioso quanto precoco Mori in questa casa 1819

Ventunesimo dell' eta sua.

And below: The English poet John Keats Died in this house On the 24th of February 1821 Aged 25.

Three cheers, the signal for which was given by an English journalist, brought to a close an unostentatious ceremony which ought to have taken place years ago.

WOOD ON FIRE.

A passing train on the Minneapolis Railroad on Monday morning, set fire to a very large pile of sawed cord wood near Kennings plaining mill, but the prompt alarm of fire called the fire company and other citizens to the rescue who soon put the fire out.

Extreme caution, on the part of our citizens is necessary this dry weather to prevent a serious conflagration in our city.

NEW DWELLING.

Our old friend and energetic townsman Reubin Melvin, has built him a very neat dwelling house in the eastern part of our village. Messrs Theo. Kenning and L. W. Noble were the mechanics in charge of the job.

NARROW GAUGE RAILROAD.

The surveying party of the long talked of Narrow Gauge Railroad, have commenced surveying the route from Minneapolis westward, they strike through the country from Cedar Lake, this side of Minneapolis, to Excelsior, thence through the narrows towards Watertown. This being simply a preliminary survey, they may vary the route considerably before finally locating the road permanently. There is one thing sure, however, it they intend to build this season, they will have to quit talking and commence work, or people will have no confidence in them hereafter.

Peter Wirtz, Esq., has been engaged by the trustees of the Catholic Church in Benton as assistant teacher in school, to act in conjunction with Prof. Leo Vreyens, his term commencing to day, May 1st. The school is in a highly prosperous condition under Father Braun's fostering care.

Fishing Up.

Joseph Franken, Esq., is fixing up the residence lately occupied by S. Fowler, and is adding an addition to the building and otherwise toning it up, so that when completed it will be a first class family residence.

Commissioners Appointed.

Judge McDonald, has appointed the following commissioners to assess the damages resulting from the building of the mill dam across Crow river, at Watertown, in this county.

Phillip Henk, A. W. Tiffany and Jonas P. Atkins.

Good Demand.

Building lots are in good demand in Chaska, this spring, and command good prices. This is a healthy sign and taken in connection with the fact that there is not an empty building in town, speaks volumes for the future of our young city.

Money to Loan.

We call the attention of our readers to the card of Messrs Lewis & Kelly, of Minneapolis, Jerrie Rheinmann, agent. This is an old and reliable firm and will loan money on 3 and 5 years time at a low rate of interest. Mr. Ehemann will attend to all matters for that firm in this county and will promptly answer all communications addressed to him.

Fishing Tackle.

Jos. Franken, of the city Drug Store, has recently added a complete line of fishing tackle to his line of goods. Some of his "spoon hooks" are beauties and sportsmen should call in and examine his goods before purchasing elsewhere.

PERSONAL.—Chas. Bachmann Esq.

of Young America was in town on Monday and made us a pleasant call.

Theo. Spicker and his sons William and Henry were in town last Saturday and called in and looked the HERALD office over before going home.

Messrs. Thamer, Dols, Teubert, Maas, Ka, Erhard, Bierline, Swanson and Trick of Young America, made us pleasant calls while in town attending the assessors meeting.

Watertown was well represented in our village last Saturday. Among the lot, we found M. F. Linean, J. A. Flood, Ferd Dressel, Ern. Hainlin and Jos. Craven.

Jacob Lahr, of Helvetia, the well known mill man, was in town on Monday and called in to see us.

John G. Nystrom, an old settler of Watertown was in town Monday on business and dropped in to see us.

Peter Effertz and John Daniels, two of Norwood's best citizens were in town last Wednesday and made the HERALD office an agreeable call.

Man with all his endowments, is in many things most foolish, he will give all that he hath for his life, but is reckless and indifferent to his health. He will grapple a thief who steals his purse, yet will daily with a cough and cold and finally go into consumption, when such a sure remedy as Eiler's Extract of Tar and Wild Cherry can be easily obtained. It performs rapid cures, gains friends at every trial, and is invaluable in bronchial and lung diseases. It is a safeguard for all, from the babe to venerable age and health will be restored by its timely use. No family that has used it will be without it. Sold by all Druggists.

Important Improvement.

A FIRST CLASS MILL AT LAST.
WORK COMMENCED.

George Eitel has finally closed a contract with J. Willford & Co., of Minneapolis, for a first class flouring mill and work upon the enterprise has already commenced. The structure itself will be 30 x 45 feet, four stories high including basement, and will be of wood with flat roof, gravel covering.

The machinery will consist of four run of stones and 1 iron crusher, 5 reels, 3 middling Purifiers, 1 flour packer and the necessary elevators conveyors and shafting. The capacity of the mill for flouring will be 85 barrels each 24 hours, while the storage capacity of the mill will be 5000 bushels of wheat, 300 barrels of flour and 25 tons of feed.

The machinery will be first class throughout, and the fact that Joe Willford has the contract for the inside work is a guarantee that it will be done up in "tip top" shape.

Leonard Grates has been awarded the mason work and August Winholz the contract to put up the building.

Work upon the basement has already been commenced and the lumber for the structure is upon the ground. It is the intention of Mr. Eitel to have the mill completed by the first of July, if nothing unforeseen happens.

A cooper shop will be added to the mill this fall, which will give employment to 5 men.

This mill will supply a want long felt in Chaska, and we are confident that Mr. Eitel will be handsomely remunerated for his outlay. The mill will do both custom and merchant work and will run the year round.

MARRIED.

FIFTIETH BIRTHDAY.

Invited friends to the number of 50 or 60 assembled at the hospitable mansion of our honored fellow citizen, Florian Linenfelser, last Wednesday evening, to celebrate his 50 birthday. It was one of the most enjoyable occasions that it has been our good fortune to ever attend. Many were the wishes of a continued long life, prosperity and happiness showered upon Mr. Linenfelser and his estimable family.

HON. HENRY FOWLER'S recent speech in the House of Representatives, on the army bill, has been published in the St. Paul Bulletin and is a very good speech in every respect.

ANOTHER cane sugar and syrup refining manufactory is about to be placed in operation in Fairbault.

THE DEMOCRATIC city ticket was elected in St. Paul, last Tuesday, by a majority ranging from 25 to 85, for M. J. Steinhilber, a majority of the Aldermen and school inspectors elected are also Democrats.

THE STORY that E. M. Stanton committed suicide has been emphatically denied by Stanton's friends. Stanton in his last illness.

THE CONGRESSIONAL directory of the forty-sixth congress which has just been issued, contains the following biography of Hon. Henry Fowler, member of congress from this district:

HENRY FOWLER of Henderson, was born in Lique, Ontario, Canada, August 24, 1833, received a common-school education; emigrated to the United States in April, 1849, and settled in Iowa; in 1853 removed to Henderson, Illinois county, Minnesota; engaged in mercantile business, which he still continues; was elected a member of the first legislature in 1877-78, and re-elected for 1879-80; was elected state senator for 1879-80; and was elected to the forty-sixth congress as Democrat, receiving 14,747 votes against 12,713 votes for H. B. Strait, Republican.

JOHN M. PALMER FOR PRESIDENT.
The New York Sun of last Sunday suggests the name of John M. Palmer, of Illinois, for President, and gives the following reasons for supporting him, which are certainly strong ones:

First—John M. Palmer is a self-made man. A cooper by trade, he became an able and successful lawyer.

Second—An anti-slavery man in feeling, he was a worker in the Democratic ranks up to the repeal of the Missouri compromise.

Third—He was one of the founders of the Republican party.

Fourth—He was major-general's stars in battle on the Union side.

Fifth—When clothed with military power he yielded to the supremacy of the civil courts.

Sixth—A Liberal Republican in 1872, he has been identified with the Democracy ever since.

Seventh—On every occasion he has stood by the constitution, the Union, and the self-government of the State.

Eighth—He has always been a hard money man.

Ninth—An American of Southern birth and Western training, at the age of 62 he is still a level-headed, strong-handed, hard-working man.

Tenth—He is a married man, and has had nine children and a due proportion of grand-children.

It may here be stated that in giving the names of those who were engaged in the late war some mistakes have unavoidably occurred. Undoubtedly there were fifty or more who really resided in this County who were credited to other Counties, and some their residences were not stated. In such cases some names may not appear in the list.

(To be continued.)

Meers the Confectionary man will open his ice-cream parlors next week.

Two Eastern men were in town last week; the one looking up a location for a general store; the other a merchant tailor shop.

An agent of the Carver Free Press has been here several days "warining up the town" for all those who have the cash to pay for individuals in the shape of a puff (ch).

The statements made in last week Free Press Cor., from this place regarding damages sustained etc., by the backwater from the dam is a detectable slur and void of truth. If this smart Aleck would take pains to learn something once in a while, he would arrive nearer facts. The courts will probably settle the matter without his aid.

Hon. J. A. C. Flood and S. B. Kohler Esq., left for Minneapolis the other day in the interest of the Narrow Gauge R. R. Committee of this place. We may look for "STARTLING DEVELOPMENTS" soon, but as to the nature of the puff it is not safe to call it a puff or a bulging. Wait.

The fellow who tried to re-organize a Good Templars lodge here last week, gave up the thing as a bad job. His breath smelled bad in the meantime and confidence in his abilities was at once below par. Good bye John.

Measles may be regarded as the prevailing epidemic in this village and vicinity. An average of twenty new cases weekly is the report for the last four weeks. We are in hopes of getting rid of this monster in the near future. We can do without the spotted fever just as well as not.

May 8th 1879.

Mrs. Jacob Kowalek was very dangerously ill during last Saturday and Sunday a week ago. It was thought she would die. Rev. Oester administered the Holy Communion to her.

Quite a large band of Gypsies encamped near a fence along the road running past Joseph Borer's home, between here and Chaska, this was yesterday a week ago. There were 3 large wagons, the men, women and children numbered some 15 to 20. They had about 15 horses with them—they were just getting ready for

supper, and several fires were burning brightly, attended to by the women.

It was the good pleasure of your correspondent to meet two able old teachers of this county, while he was in attendance, in company with Rev. W. H. Ooster, upon the Revival services held in Plymouth Congregational Church, Minneapolis, by Messrs. Pentecost and Stebbins.

Both Messrs. Stomman and Grant, the teachers referred to, seemed in the "best of spirits" and declared themselves as out of the teaching business, with not the least desire to go back to the same.

Mr. Geo. B. Nelson's mother in law died on the 1st inst., aged 83 years. A rapid consumption hastened death. She died, fully prepared, and very anxious to die, in the hope of a glorious resurrection from the grave at the last day.

Shooting Club.

Benton has a shooting club and has a
trap, glass balls and all other necessary
fixings for sport. We understand that it
is the intention of the Chaska sportsmen
to pay a visit to Benton for the purpose of
"showering the brittle."
If they go "some of them" know how to
put powder enough into a gun to make
"noise" enough to break the glass.

Every body should see the big stock at

Streissguth's.

of chronic diseases with Electricity, which
will be sent free, address the McIntosh
Electric Belt and Battery Co., 192 & 194

Contract Let.

George A. Dutoit, Esq., has contracted
with Messrs. Enger & Hanson, and Grates
& Noble, for the erection of his new dwell-
ing house, which, we judge from a glance
at the plans, will be one of the neatest in
town. The total cost of the building, com-
plete, will be about \$2,500.

Another Building.

F. C. Riebe, Esq., has purchased a num-
ber of lots from Messrs. Warner and
James in the western part of town, near
Mr. Degen, upon which he will erect a
dwelling house in a short time. We are
not informed as to the dimension of his
building, the cost &c., but when he com-
mences building will make due note of the
fact.

Summer clothing at lower prices than

ever before at Streissguth's.
Man with all his endowments, is in many
things most foolish, he will give all that he
bath for his life, but is reckless and indif-
ferent to his health. He will grapple a thief
who steals his purse, yet will daily with a
cough and cold and finally go into consump-
tion, when such a sure remedy as Eli's
Extract of Tar and Wild Cherry can be
easily obtained. It performs rapid cures,
gains friends at every trial, and is unvalua-
ble in bronchial and lung diseases. It is a
safeguard for all, from the babe to the
age and health will be restored by its time-
ly use. No family that has used it will be
without it. Sold by all Druggists.

Everybody's new suit of clothes come from

Streissguth's cheap store. The low prices
and extensive assortment at the establish-
ment tells.

Hunting Under Difficulties.

On Wednesday of last week a party of
Nimrods composed of Messrs Joe Geisen,
of St. Paul, Auditor Streukens, Joe Fran-
ken and Judge Riebe of Chaska, started
from town intent upon slaughtering num-
bers of ferocious snipe.
They had grand and exciting sport, and
Mr. Geisen, who was lured from St. Paul
by the glowing account of the quantity of
game, was nearly "lost" in a quagmire.
It has been said (but we doubt the exact
reliability of this story) that the other
sportsmen had to pull Mr. G. out by the
ears. But, however, disastrous the trip
may have been to Mr. G., "outer garments"
may have been a good time when they re-
turned home as we can testify.—And we
noticed not fail to state that we noticed in
the several game bags of the party, a black
bird, a bob tailed jack snipe, a rail and a
bittern sometimes known as a "poke."

A stitch in time saves nine

is not more true in mending clothes than in get-
ting farm stock through the winter. An
economical and sure help is Uncle Sam's
Condition Powder, it restores the sick,
strengthens the weak, improves the appetite
and will keep the stock in a thriving con-
dition, for it supplies the valued qualities
in grass. Sold by all Druggists.

Wisconsin Hail Insurance Co.

We publish the advertisement of the
Wisconsin Hail Insurance Company, of
Milwaukee, in this issue of the HERALD.
This is an old established company and
paid losses last year to the amount of \$23,
089.09, and enters the insurance field this
year under the best of auspices. A change
has been made in the management, the fol-
lowing leading capitalists of Milwaukee
have been called in the organization. Joseph
Mann, President; Gustav Pfister,
Treasurer and F. W. Cotzhausen, atty.
Mr. E. G. Hall, adjuster of the Under-
writers Ins. Co. has also been selected as a
member of the Executive Committee. Mr.
Joseph Frank, of this city, is county
agent, and will make a thorough canvass of
the county, and we have no doubt but
that he will meet with success.

To the Public.

This is to inform all concerned, that I
have no partner in the insurance business
and all persons claiming otherwise are im-
postors.
Lucas Dots, of Benton and Henry Dis-
ner of Waconia are appointed sub-agents
in their respective localities and are daily
authorised to collect monies and receipt for
the same in my name.
Chaska, May, 12 1879.
M. H. MUYERS.

The ladies should remember that only at

Streissguth's they will at all times find the
leading novelties of the season. New goods
arriving daily and stock always fresh.

Hail Insurance.

John G. Mommens, A. Riestner, Nick
Roers, and Andreas Riederle, have re-in-
sured their crops against loss by Hail in
the Wisconsin Hail Insurance Company,
Joseph Frank agent. This is pretty
good recommendation for the Wisconsin
Company, considering that they have been
quoted as being strongly opposed to that
organization. "Acts speaks louder than
words."

East Union.

We last week (in company with our
friend Mr. Lewis of Minneapolis) had oc-
casion to visit East Union, and vicinity, in
San Francisco Town, and we must say that
everything had improved so that we could
hardly recognize the place since last there
about three years ago. From the Revd.
Mr. Carlsons Church, to East Union Post
office, and beyond, are to be found some of
the finest farms in our County, for instance,
John Olsen, O. Wallstrom, John A. Ol-
son, Saml. Lundberg, A. P. Melquist, J.
A. Hillstrom, And. Wallin, P. A. Johnson,
Andr. Huestadt and others whom we cannot
recall, are indeed beautiful, and valua-
ble farms. At East Union we had the
pleasure of calling upon our friend A. J.
Carlson, whom we found at his Grist Mill
hard at work, and his building "jam full"
of wheat to be ground. Mr. Carlson and
his partners, will soon commence over-
hauling and rebuilding their Mill, putting
it into No. 1 condition. We earnestly
hope and we have no doubt that these
gentlemen will make a financial success of
this undertaking. The situation for a
mill is certainly a good one, and Mr. Carl-
son is just the man to conduct a business
of this kind, having had large experience
in milling, and also possesses the entire
confidence of the farmers.

Mr. Lagerstrom & Sons, are running a

A CARD.

I learn that a certain LAMBERT lawyer of
Carver, while in a saloon in Chaska, and
in the presence of gentlemen assailed my
character by stating that I owed him for
services, that I was no man, and wound
up his peroration by saying that I was a
s—n of a—b. I know no reason for this,
except that I refused to vote for him for
an office which he desired, and for which I
considered him utterly unfit. I do not
think I need apologize for this, for I can
assure the aforesaid LAMBERT lawyer, that
I shall occupy the same grounds in the fu-
ture that I have in the past with regard to
him. I do not see how I can owe him any-
thing, as I never engaged his services,
preferring at all times the services of a
gentleman to represent my interests—
However if it is as he states let him come
to me and I guarantee him satisfaction on
the spot. That the remarks alluded to
be made among men of his own stamp,
I do not know that I should have troubled
myself about it, for I should have regarded
as beneath the notice of any respect-
able man. He will no doubt say—as he
has done before—that it was all a drunken
frank. But as he happens to be diabolically
and perennially in that state, I see no rea-
son why we should not consider his
normal condition and hold him accountable
for his conduct on such occasions. We
will let this suffice for this time, but if the
Honorable (?) Judge desires to hear furth-
er from us, just let us hear from him.

IN 1818 thirteen men met to pray in reference to founding a place of learning for those of the Baptist faith. They commenced by contributing one dollar each. Out of this good Madison University and its widely extended educational and missionary influence, and its landed estate, now amounting to \$500,000.

Enos's promised electric light has not yet had any very marked effect on gas stocks in this country. At a recent auction sale in New York, Manhattan stock sold at \$180; gas at \$70; and \$140; at \$40; at \$70; at \$85. These figures give a good idea of the profits made by gas companies.

Gen. Ross, chief engineer of the Northern Pacific Railroad, says the migrating negroes who take employment under him will work less than required on Southern plantations, and get more pay. The 500 already hired will, if they desire, be enabled to establish themselves as farmers on homesteads on the line.

It is now said that owing to the prospects of the Roman Catholic Church in Scotland, the Pope will soon create a Cardinal for the Scottish hierarchy. Scotland has not had a Cardinal for over three hundred years, when David Beaton or Beith, as the name was sometimes spelled, was Cardinal Archbishop of St. Andrews.

Mrs. Lydia Vandenberg died at Paterson on Tuesday, at the age of 98 years. Her husband, Abram Rutan, was a soldier in the Revolution and in the war of 1812, and for many years kept a grocery in New York, in Pearl street, then known as "Cow lane." Her faculties were unimpaired to the last, and she was ill but a few days.

A WHITE ass some bigoted officials dismissed a domestic from the royal household, one whose behavior the Queen had observed with approbation. The Queen missed her, and on learning that the girl's attendance at a Baptist meeting-house had led to her removal, immediately commanded her restoration to her former position.

We suspect, remarks the Washington, D. C. Post, there will never be an end to blackballing suits against wealthy men of high position, in political or social circles, so long as the law tolerates the practice of taking up such cases on shares. But for the aid thus rendered to desperate adventurers, they could not ply their infamous vocation.

MANY wealthy Japanese, have, for a considerable period, furnished their houses largely in the European style, and have imported furniture from abroad. The Japanese have now decided to make all furniture at home, after imported models, but will still be indebted to foreign countries for the various woods, as well as for carpeting, papering, and tapestries.

IN Richmond, Va., a short time ago, one young gentleman murdered another young gentleman for a real or fancied insult to a young lady. The murderer will not be hung, but is to be deprived of the companionship of his friends for two years, unless pardoned on before that time expires. The custom of carrying deadly weapons will not receive much check from this case.

THE Austrian newspapers remark upon the extraordinary diminution which has taken place in the number of marriages concluded in Vienna. The disinclination on the part of the men to marry has risen to such a pitch that in the district of Wieden marriages pending provided by charitable foundations are now actually going a-begging. There are plenty of female applicants to claim them, but they can find no mates.

A MISTAKE that occurred in a Summit street saloon, in Toledo, O., on a late evening took a practical turn before its conclusion. One of the gentlemen present wanted a back, and going to the American District Telegraph box pulled what he supposed to be a call for a carriage. It proved to be a call for fire, and the proprietor of the saloon was somewhat astonished when the entire fire department came thundering to the door. An explanation followed, and free drinks all around.

ONLY three of the cardinals whom Gregory XVI created are now living, and one of these—Cardinal Asquini—is in danger of losing his life. While taking down a book from a shelf of his library, a short time ago he fell and broke his thigh-bone so that slight hopes have been entertained of his recovery. He holds the office of Secretary of Briefs, and is 76 years old. At the same time it is learned that Commendatore Strobini, and one of Leo XIII's most devoted friends, is dying from apoplexy. On the accession of his friend to the papal throne he was made Scalo Segreto, or private meat-carrier to His Holiness.

THERE died in Bedford, England, a short time ago, John Howard, who was born in the year that John Wesley died, and whose desire had long been that he might live to the age of Wesley—a desire which was gratified, for he died at 88, the exact period of Wesley's life. He was an iron manufacturer, and had accumulated a large fortune. He had been Mayor of Bedford four times, its senior magistrate for many years, and for sixty-five years of his life he was his custom to preach by appointment. When 82 years of age and obliged to sit while he spoke, he would go seven miles to fulfill an appointment. He has a son in Parliament, to whom his last words were: "Don't be carried away by tide, but keep the end in view."

The record of court martial in the case of Gen. W. S. Stanley on the charges of conduct unbecoming a gentleman and prejudicial to service in charging Gen. William R. Hazen with cowardice, has been considered by the Senate. The Senate has decided to acquit him, and it has been decided to issue an order reconvening the court at Governor's Island, New York harbor, for the purpose of making up and presenting the record in regard to the conduct of Gen. Stanley. The private opinion of all the war department officers seems to be that Stanley has sustained his charges against Hazen at least to a very great extent, and that he has in no way dishonored himself in bringing them against Gen. Hazen, but it is considered that the interests of the service require that Stanley should be specifically admonished against bringing charges, writing letters and adopting the course which he has taken during the past few years in order to expose and humiliate Gen. Hazen.

The record of court martial in the case of Gen. W. S. Stanley on the charges of conduct unbecoming a gentleman and prejudicial to service in charging Gen. William R. Hazen with cowardice, has been considered by the Senate. The Senate has decided to acquit him, and it has been decided to issue an order reconvening the court at Governor's Island, New York harbor, for the purpose of making up and presenting the record in regard to the conduct of Gen. Stanley. The private opinion of all the war department officers seems to be that Stanley has sustained his charges against Hazen at least to a very great extent, and that he has in no way dishonored himself in bringing them against Gen. Hazen, but it is considered that the interests of the service require that Stanley should be specifically admonished against bringing charges, writing letters and adopting the course which he has taken during the past few years in order to expose and humiliate Gen. Hazen.

WM. LEONARD GARRISON, the noted abolitionist of slavery times is dead. He died last week at an advanced age.

Hesmericks of Indiana says he won't accept second place on the Democratic presidential ticket. Sensible.

The Democracy of Iowa have nominated a very able and strong ticket. Judge Trimble heads the list as candidate for Governor.

Chicago Headquarters.

The St. Paul & Sioux City Railroad Company have opened a MINNESOTA HEADQUARTERS in Chicago, where all the newspapers in the State will be kept on file and a book of registry for visitors. For the convenience of Minnesota settlers and telegrams may be sent in care of W. T. Hall, Minnesota Headquarters No. 106 Clark Street, Chicago.

Our farmers want to be on the lookout for sharpers who are now traveling through the country operating a new game, which is as follows: The sharper pretending to be anxious to purchase a lot of poultry, contracts to buy all the chickens the farmer has to sell, and pays one dollar down as a bonus. He then writes a receipt for the dollar in lead pencil, "contriving to snap the point of the pencil off just as he is ready for the farmer to sign the receipt. Calling a fountain pen from his pocket, he says: "Well this won't break, anyhow," and hands it to the farmer, who readily affixes his name to the paper. The sharper then leaves, promising to call again in a few days for the poultry. The pencil marks are then erased, and a promissory note made out for any sum that suits the fancy of the sharper. Look out for them.—Benson Times.

The Indian government has succeeded finally in effecting an arrangement with Yakob Khan, which, it is said, will comprehend the main object of the British policy in Afghanistan. What that policy is but few know. It is probably a little like the Schleswig-Holstein question as expounded by Lord Palmerston. That peer declared that but two men ever fully understood it—another man and himself. The other man had died and he had forgotten it.

The Swiss people have decided by a large majority to restore the death penalty for the murder, which was abolished several years ago. The large increase of crimes against life that has taken place since the amendment to the law has compelled a return to old practices. It has been repeatedly demonstrated that death is the only penalty that has terrors sufficiently great to deter men from the commission of murder, and if its enforcement was more certain in this country there would unquestionably be fewer crimes of that character.

Hos M. P. Ross, the ex-chief of the Cherokees, the ablest man the civilized tribes have produced, was interviewed the other day in the Indian country by a correspondent of the Chicago Times. In regard to opening the Territory to white settlement, Mr. Ross said: "The thing is illegal and an outrage. Any fair-minded man will say so. The ceded lands, as they are called, were sold to the United States with the expressed understanding that none but Indians would be settled upon them. This is a proposition so plain that it would be absurd to discuss it." In reply to a statement that the Indians opposed the scheme of settling the wild Sioux and Cheyennes among them, Mr. Ross said: "No Indian ever objected to the Sioux being settled on the ceded lands. They are of our race, and we have sympathy for their hardships and misfortunes. I'd be ashamed of myself were I to object to their settlement on this territory." He denounced the statement as a falsehood that the masses of the Indians favored the white settlement, and exclaimed:

Why should they? Where has the white man touched us that we have not withered? Name a treaty we have broken before the white man's want of faith and inordinate greed of land made us suspicious and treacherous? What is Indian history? A record of childlike faith on one side—the side of the native—and of

shameful breach of promise on the part of the whites. Aye, sir, from the day when William Penn treated with the Delawares down to our own day, how much there is to blush for on the part of the white man! I do not hate him. His blood is in my veins, too, but my heart goes out to the weaker side of my line, and by them I will stand to my latest breath.—Pioneer.

Laketown Items.

May 29th 1879.
Measles have not prevailed to any alarming extent in our midst. Have been but a few cases. Thus note it ever be!—Plus, indeed, has been propitious, of late.

The bee hives of Messrs. Henry Gerdson and Peter Wiley are an interesting sight at present, and can be contemplated with profit. Those of the former gentleman number some sixteen or seventeen, and those of the latter twelve.

What with the sweet melody of the music of the birds,—the wild flowers, of various shades of color, which adorn every hill side, perfuming the air with their fragrance,—the fields, meadows, and woods, all dressed in garments of living green,—and our lakes, sparkling forth like gems of beauty,—Laketown, indeed, presents a truly grand "picture of nature" at this, the loveliest season of the year.

Delightful spring! for these we yearn, How gladly hail we thy return!
The rolling seasons as they move,
But speak the Great Creator's love.

Augustus and Herman Lick, brothers, left for the prairie yesterday a week ago. An revoir!—Report says Charles Pessler has gone, too.

Paulus Bierline, Hail Insurance agent, is meeting with much success.
Mr. Peter Wiley constructed for himself a handsome boat, which he intend putting to use shortly, in fishing on the lake near his house. He put its value at \$10.

Carl Wendt's orchard of some 100 fruit trees presents a fine appearance.
Ascension Day service, 3 p. m. at Moravian Church, was very well attended.—Rev. Oerter of Chaska officiated.

MARRIED.—John Rippel, Esq., son of Mr. John Rippel, to Miss Margaret Goldschmidt, of this place, on May 22nd, 1879, Rev. Mr. Oerter, officiating. Ceremony took place at Moravian Church, 4 p. m.

We all unite in wishing them many years of wedded blessedness and felicity, and we trust that the beautifully quiet and joyful wedding scene may have been typical of their future wedded life.

One sacred oath has tied your loves;
One destiny your life shall guide, nor wild, nor deep, nor common way divide!

Here and There.

Cloudy weather.

Bad weather for brick making.

River is at good boating.

Fishing parties are numerous now days.

Rube Melvin's new house is, about ready
to move into.

Real estate transfers are quite numerous
in this county just at present.

Wild pigeons abound, and only wait to
be taken in.

Engelbert Ketterer has removed to Chaska
with his family. Welcome.

Joe Franken caught the boss picker at
Henks lake Sunday, it weighed nearly
half ton.

Sunday last a certain fishing party found
among their refreshments one box worm
cakes and bottle soothing syrup. They
say Ramsdill did it. He says nien.

Charles Rush is doing a boss job in fix-
ing the bridge between Chaska and Carver.
A new floor and railing, besides good side
filling makes it safe and sound, and Chas.
says he is bound to have the traveling pub-
lic satisfied.

Sam'l. Fowlers children and others in
town are down with measles and from all
accounts there are measles enough to go
round.

John Sandine of Carver, has bought a
building at that place, and intends soon to
open a store there. Success, John.

Casper Kronschnable, the enterprising
Benton Miller, was in town on bank busi-
ness on Monday last. He reports every
thing flourishing in his section of country.

Our friends Habsen & Peterson of Car-
ver, are doing a very large "agricultural
machinery business." They are enter-
prising young men, and are deserving of
success. John is the "boss" reaper can-
vasser, and what he cannot sell no man
can try.

MARKED.

At St. Paul Wednesday, May, 28th,
Frederick E. DeToit to Mrs. Josephine
Brinkhaus, both of Chaska.

A stitch in time saves nine" is no
more true in mending clothes than in get-
ting farm stock through the winter. An
economical and sure help is Uncle Sam's
Condition Powder, it restores the sick,
strengthens the weak, improves the appetite
and will keep the stock in a thriving con-
dition, for it supplies the valued qualities
in grass. Sold by all Druggists.

Farm Insurance.

Matt Mueyes returned from an insurance
tour through the county last week,
and met with deserved success. He cap-
tured some 15 policies for the old reliable
Continental in his last trip. He has only
No 1 companies.

New Residents.

Dr. E. H. Lewis and family, will take
up their residence in this city next week,
and will move into the residence now oc-
cupied by Joseph Franken, until his new
building is completed.

Engelbert Ketterer, of Shakopee, has al-
most moved to town and occupies George U-
miers now brick residence near Kenning's.
He will have charge of one of the cooper
shops this summer.

Peevish children have worms. Dr. Ja-
que's German Worm Cakes will destroy
the worms and make the children happy.
Sold by Jos. Franken.

ANOTHER BALL.

Once more Peter Itis intends entertain-
ing the amusement loving portion of the
community by giving a grand ball, this
time at Concordia Hall on the evening of
Monday June 2nd.

Benton Brass Cornet Band will furnish
the music and "Peter" will dispense
the "hospitalities" of the occasion, our
people know that this means a "good time"
for all who attend.

New Buildings.

We are informed that a number of new
buildings are in contemplation in this city
this summer. Our village almost presents
the same appearance of some new front tier
railroad town.

Mother when your dear baby suffers in
teething, use Dr. Winchell's Teething Sy-
rup, it regulates the bowels, soothes the
pain and brings natural sleep. Sold by
Druggists at 25 cts a bottle.

MARRIAGES.

There has been several marriages in
this county in the past few weeks.

Miss Goldschmidt a daughter of Fred
Goldschmidt of Laketown was happily
married last week at her fathers residence
and we join a large number of personal
friends in wishing them a long life of hap-
piness.

Chas. Bachmann Jr., and Fred Delz's
son, of Young America were also married
last week, and from reports received judge
a great time and many heart felt wishes
for the happiness of the young couple.

IN JAIL.

Sheriff DuToit, was up to Chippewa
County last week after one Isiah Sanders,
charged by W. J. Cameron, of Camden, of
adultery. The sheriff found his man and
brought him down and committed to jail
last Monday. The preliminary examina-
tion was commenced last Tuesday and con-
tinued until Saturday to procure witnesses.

Change of Time.

We call the attention of the traveling
public to the change of running time on
the Minneapolis Railroad. The correct
table appears at the head of our local col-
umn.

For a pamphlet on Electric Treatment

of chronic diseases with Electricity, which
will be sent free, address the McIntosh
Electric Belt and Battery Co., 192 & 194
Jackson St. Chicago, Ill.

Important Railroad Arrangement.

We are informed that the Minneapolis
& St. Louis Railroad has commenced grad-
ing for a second track from Minneapolis to
Merriam Junction, and that in all proba-
bility, the Sioux City road will run their
trains over this portion of the Minneapolis
road. Should this prove true, it will
greatly benefit this county. A few weeks
time will fully develop the "inwardness"
of the whole thing.

House Struck.

The residence building of Leonard Mau-
rus, of this city, was struck by lightning
last Tuesday night and was considerably
damaged. It struck in two places in the
wing and demolished the chimney and a
part of the ground floor. Fortunately the
family escaped with a bad scare. The
building was set on fire by the stroke, but
the heavy rain soon extinguished the
flames. The building had no lightning
rods nor was it insured.

New Elevator.

We call the attention of our builders to
the advertisement of James Slocum, Jr.,
of Norwood, inviting proposals for the
building of a large wheat elevator at that
point. Mr. S., is one of our largest, as
well as most reliable merchants, and any
contract entered into with him is "sure
pay" on fulfillment of contract. Veri-
fer, read notice and be governed accord-

DIED.

At her residence in Laketown on the 2nd
day of May A. D. 1879, Mrs. Fredericka
Wetzel, mother of Mrs. Jno. G. Macdonald, and Mrs. Geo.
Loy.

Her funeral ceremonies were conducted
in Chaska last Saturday forenoon and her
remains interred by the side of her beloved
husband, in Mt. Pleasant Cemetery. There
was a very large concourse of relatives and
citizens present. Mr. Fred Schutz, of Car-
ver, officiated at the grave.

Lightning Strikes.

The barn of Ferdinand Bernald, of Hol-
lywood, was struck by lightning during the
heavy thunder storm some two weeks
ago, which set the structure on fire causing
its total destruction. It is a serious loss
to Mr. B., as he is a poor man.

The dwelling house of August. Litfin, of
Camden, was also struck by a bolt of the
same fluid on Sunday week and the build-
ing seriously damaged. The family miracu-
lously escaped injury.

This is a good field for lightning rod
agents, as we are informed that there
are but a few in the neighborhood.
